## A Message From the Jordans

Larry and Vanessa Jordan

This year we are eager and enthusiastic about new opportunities for The Jordan Foundation. We plan to:

Re-launch the ECHO programs in science and engineering.

Strengthen community partnerships and expand our volunteer involvement.

Develop innovative funding projects with a Golf-A-Thon and Art fundraiser.

While funding challenges for all non—profits are particularly daunting at this economic time, we continue to need your support now more than ever.

As always, it is not about us, but the youth of today who are our leaders of tomorrow. The question as stated by a writer “if not now, when... if not me, who?”

We are committed to continue our “hands on” approach and through solid financial donations and linking with individuals who share our vision, a significant difference can be made.

We continue to be appreciative of our Board members who are ready to step up to the plate to ensure our programs are relevant and continue to make an impact on our youth.
